

We are located on a remote tropical island paradise on the southern tip of the Mariana Archipelago. It is approximately 40 miles north of Guam and 70 miles south of Saipan. Rota is a Commonwealth of the Northern Mariana Island and is a part of the USA, using US currency, postage and the English language.

Rota is known for its natural scenic beauty and spectacular blue crystal clear water. It is surrounded by pristine fringing reefs dotted with secluded white sandy beaches.

Blue Palms is located at the water's edge overlooking Sasanhaya Bay. Our dive shop has spacious ground to kick back and relax in between dives. We have an experience, helpful and friendly staff who can speak Japanese as well as English. We want to provide you a great diving experience with an added personal touch.
